

# The Silesian Eye-Blink Database

## Database Release Agreement

To receive a copy of the part of the **Silesian Eye-Blink Database** (further denoted as "the database"), the researcher must sign this document and thereby agree to observe the restrictions listed herein. This is not the final version of the database. The full version of the database will be published in the dedicated publication. The signed document must be e-mailed to **krystian.radlak@polsl.pl**

The researcher(s) agrees to the following restrictions on the database:

1. The database is for the academic use only.
2. The database remains the property of the Interpersonal Nonverbal Communications Laboratory of the Silesian University of Technology.
3. The database will not be further distributed, published, copied, or further disseminated in any way or form whatsoever, whether for profit or not. This includes further distributing, copying or disseminating to a facility or organization unit in the requesting university, organization, or company.
4. The images from the database can be used only for testing purposes. It means, that you can test your algorithms on this database, but it is not allowed to publish the images from this database in any form. It also includes scientific papers, conference materials, books etc.
5. There is no warranty for the database provided for download. The database is therefore provided "AS IS" without any warranty of any kind, express or implied. You assume the entire risk as to the quality and performance of this database. If the database is found to be defective, you assume the entire cost of all service, repairs and corrections. In no case, the individual authors, the Interpersonal Nonverbal Communications Laboratory or the Silesian University of Technology can be held responsible for arising damages, including general, special, or consequential damages arising from the random use of or inability to use the database (including, but not limited to loss or damage to data, or any direct or third persons, or inability to interoperate with other software programs).
6. All documents and papers that report on research that uses the database will acknowledge its use. At least one of the following papers describing the database should be cited:
  - Radlak K., Smolka B: Blink detection based on the weighted gradient descriptor. In: Proceedings of the 8th International Conference on Computer Recognition Systems CORES 2013. Advances in Intelligent Systems and Computing. R. Burduk. K. Jackowski. M. Kurzynski. M. Wozniak. and A. Zolnierok, Springer International Publishing, 2013, vol. 226. pp. 691–700
  - Radlak K., Smolka B: A novel approach to the eye movement analysis using a high speed Camera. In: 2nd International Conference on Advances in Computational Tools for Engineering Applications (ACTEA'12), Zouk-Mosbeh, Lebanon, 2012, p. 139-144.

I agree to the above terms. \_\_\_\_\_
